

Overview

Sometimes your inventory just is not big enough. HellHold gives you two kinds of portable storage you carry in your inventory:

- **Backpacks** — craftable bags that hold extra items and can be upgraded to carry more.
- **The Ender Pouch** — a pocket-sized way to open your Ender Chest from anywhere.

Each has its own page in this book.

“ The Ender Pouch **replaces** the old "ender backpack." If you still have an old one, it converts to an Ender Pouch automatically — see the Ender Pouch page.
