

Banner Beds

Tired of plain bedsheets? **Banner Beds** let you overlay a **banner design** onto a bed, so your bed shows whatever pattern you have crafted.

How to do it

Make a banner with the pattern you want, then combine it with a bed (check your **recipe book** for the exact recipe). The bed takes on the banner's design.

“ Great for matching your bed to a themed bedroom, a guild colour, or a build's palette.
